Dear Congressman Huffman,

Thank you for your hard work in our region (protecting public lands, support for our local recreation economy, protecting our water resources and fisheries...). We are fortunate to have a Congressman who represents us so well in Washington DC.

I'm writing to express my support for the continued protection of our public lands (special wild places, biologically important places, unique watersheds and rivers...).

Because of my role as (a local business owner, an elected official, a parent, a biologist...), I see the benefits of these protected places because of the (economic benefits to our community, physical well-being of people who enjoy these places, critical protection of species in these unique areas, their importance in our communities' overall health...).

The (Trinity Alps Wilderness, Siskiyou Wilderness, Kelsey Trail, Canyon Creek watershed...) is important to me because (I've always loved that place, I take my children there, it brings fishermen to the area that support our local businesses, local outfitters get hired, it heightens awareness of our important tourist economy...).

We need to not only protect the last of our pristine places with wilderness designations, but we also need to restore our watersheds, protect our fish populations, and manage the landscape for fire after years of fire suppression. Our public lands have many different needs, and I encourage you to address as many of these needs as possible.

This is why I am writing to express my support for your draft legislation that restores and revitalizes degraded forests and watersheds, permanently conserves ecologically significant areas through the designation of Wilderness and Wild & Scenic Rivers, expands recreation opportunities and enhances local communities.

Thank you again for (all of your hard work representing our region, being a strong voice for our region, continuing your hard work for our region...).

Sincerely,

Your name

Your title, list any other previous titles (Boards of Directors, former elected official, current community roles, county of residence)
